Maximiliano Herr

Full Stack Developer

Work Experience

Full Stack Developer
TourneyMate
December 2024 - In progress

- Developed a full-stack web application using **Next.js, TypeScript, Tailwindcss, Shadcn.ui**, **Prisma** and **PostgreSQL** to manage soccer tournaments.
- Implemented user authentication and authorization with **Better-Auth**. Built features for tournament creation, team management, and score tracking, with a responsive UI.

Front End Developer
CH Lawyer Services
June 2023 - August 2023

- Developed a modern website using **TypeScript**, **Next.js** and **Tailwind CSS**.
- Insured an optimal user experience by implementing functionalities with reusable **React** components, based on the design I created in **Figma**.

Full Stack Teaching Assistant
Henry
February 2023 - July 2023

- Guided and supported students during their integration process and bootcamp success.
- Provided active assistance in solving practical exercises, promoting collaboration and team learning.
- Proposed and implemented innovative ideas to improve student performance.
